Telefax Orders for PTO Products and Services

PTO customers using deposit accounts often find it convenient to place orders for products and/or make payments through telephone fascsimile transmission. This reduces the amount of time for the PTO to receive, process, and return completed orders or post payments. PTO facsimile numbers for frequently requested products and services are:

Certified Copies	(703) 308-9759
Patent and Trademark Copies	(703) 305-8759
Patent and Maintenance Fee Payments	(703) 308-7110

Customers using facsimile should not concurrently mail a copy of their order to the PTO. This practice results in duplicate orders being filled and additional charges being posted against deposit accounts. Customers seeking confirmation of receipt of an urgent telefax should request so in their tranmission cover sheet.

Indexing Against a Recorded Assignment

It has been the practice of the Patent and Trademark Office (PTO) to process requests for indexing against a recorded document by adding the newly requested property to the data base record for the previously recorded document, except if the previously recorded document was an assignment. The PTO only required a transmittal letter with the recording fee and not a copy of the previously recorded document to process the indexing request. While indexing the additional properties resulted in the assignment data base being updated, the indexing request itself was never microfilmed to become part of the official record.

Effective immediately, the PTO will no longer process such indexing requests. Such indexing requests do not comply with 37 CFR 3.11, 3.28, and 3.31 which require that each request for

recordation include the document to be recorded and a cover sheet. Instead of filing an indexing request, a party should submit a cover sheet in conformance with 37 CFR 3.31, a true copy of the document, and the recording fee. PTO will assign a new recording date to that submission, update the assignment data base, and microfilm the cover sheet and document to become part of the official record.

Notice of Examination for Registration Wednesday, April 13, 1994

Pursuant to the provisions of 37 CFR §§10.5, 10.6 and 10.7, an examination for persons seeking registration before the U.S. Patent and Trademark Office as patent attorneys and agents will be held on Wednesday, April 13, 1994. The deadline for filing applications along with the **$300.00** examination fee and *all* necessary showings required by 37 CFR§10.7(a) and (b) is **January 18, 1994.**

With the exception of those persons who actively served four years or more in the patent examining corps of the U.S. Patent and Trademark Office for whom the examination may be waived, all persons who wish to become recognized to practice before the U.S. Patent and Trademark Office in patent cases must, pursuant to the above noted rules, pass the examination. Note that passing

the examination does not qualify one for registraiton for practice before the U.S. Patent and Trademark Office in trademark cases. Such resognition is governed by 37 CFR §10.14 which does not require the passing of an examination.

There is no limit on the number of times the registration examination may be taken. The examination consists of two parts, a morning section and an afternoon section. To pass the examination, an applicant must pass both sections. An applicant who passes one section of the examination, but who fails the other section, will not be required to retake the section passed, *provided* the applicant takes and passes the section failed in one of the next three examinations regularly scheduled by the U.S. Patent and Trademark Office. If the applicant does not pass the section failed in one of the next three examinations scheduled, the applicant must retake both sections of the examination. No extensions of time will be granted except in extraordinary circumstances, e.g., an accident or hospitalization just prior to the examination which prevented the applicant from taking the examination.

Application forms may be obtained from the Office of Enrollment and Discipline, Suite 4B30, 2900 Crystal Drive, South Tower, Arlington, Va., by mail addressed to U.S. Patent and Trademark Office, Box OED, Washington, D.C. 20231 or by calling (703) 308-9618.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
